SUMMARY

Enthusiastic and detail-oriented junior tech professional with a passion for problem-solving and continuous learning. Seeking an entry-level role where I can contribute to innovative projects and grow as a Python Django developer in a collaborative team environment.

PROJECTS

Drainwatch-Smart Drainage monitoring System

Oct 2025-Jan 2026

- Developed a Django Website for reporting Waterlogging and drainage issues.
- Integrated location-based reporting (Maps + geotagging) for accurate issue tracking
- Designed escalation mechanism for priority-based complaint resolution.

Food Donation Management System

Jun 2025-Aug 2025

- Built a multi role platform (Admin, Donor, NGO, Pickup-Agent) with secure authentication and role-based access control.
- Implemented logistics workflow(Donor->NGO->Pickup-Agent) reducing manual coordination.
- Integrated reporting dashboard for analytics on donations,usage,and wastage reduction

YieldSmart-Smart Crop Yield Prediction System

Dec 2024 - Apr 2025

- Built a Machine-learning model to predict crop yield based on soil,weather and crop parameters
- Designed system to support data-driven farming decisions,improving productivity insights.
- performed data-preprocessing, feature engineering, and trained models using Regression techniques

EDUCATION

Bachelor of Computer Applications(BCA)

Sep 2022 - Apr 2025

CHMM COLLEGE FOR ADVANCED STUDIES,Chavarcode,Varkala

- GPA: 7.125

SKILLS

Languages	Java, Python, C++,OOPS,HTML,CSS, JavaScript
Tools/Frameworks	Django,Git
Databases	PostgreSQL, MySQL, SQLite
Other Skills	Communication, Problem-Solving, Adaptability, Team-Working, Time management
