PROFESSIONAL SUMMARY

BCA graduate with experience in technical support for billing software and a solid background in academic software development projects. Currently supporting Interface 360 billing software, assisting users with application errors, data backup and restoration, and basic SQL service troubleshooting procedures. Familiar with programming fundamentals, web development technologies, databases, and Django-based academic projects. Currently expanding technical capabilities by learning Dart and Flutter. Actively seeking suitable Middle East opportunities in IT Support, Software Support, Application Support, POS/Billing Support, IT Assistant, or entry-level Software Development roles.

WORK EXPERIENCE

Technical Support — Interface Solutions
August 2026 – Present

- Provide user support for Interface 360 billing software and assist with routine application issues and user inquiries.
- Help troubleshoot application errors and operational problems reported by clients to ensure smooth business operations.
- Follow established standard procedures for critical data backup and system restoration tasks.
- Assist with basic SQL service troubleshooting, including stopping, restarting, and verifying system services.
- Utilize the demo company environment to test application functionality and replicate reported user issues.

Business Associate — Mini Muthoot
October 2025 – March 2026

- Worked in a fast-paced financial services environment, gaining valuable experience in customer interactions and professional workplace procedures.

EDUCATION

Bachelor of Computer Applications (BCA)
September 2022 – April 2025

CHMM College for Advanced Studies, Chavarcode, Varkala **(Affiliated with University of Kerala)** | **CGPA: 7.125**

TECHNICAL SKILLS

Programming	Python, Java, C++, Object-Oriented Programming (OOP); Dart (currently learning)
Web Technologies	HTML, CSS, JavaScript, Django Framework
Databases	MySQL, PostgreSQL, SQLite
Tools & Support	Git, Database Fundamentals, Application Troubleshooting, Data Backup/Restoration, Basic SQL Service Operations
Mobile Dev	Flutter & Dart (In Progress)

ACADEMIC PROJECTS

DrainWatch – Smart Drainage Monitoring System
October 2025 – January 2026

- Developed a Django-based website concept aimed at reporting drainage issues and waterlogging concerns in urban areas.
- Incorporated location-based mapping and geotagging concepts with a priority-based issue escalation workflow for authorities.

Technologies: *Python, Django, HTML, CSS, JavaScript, Database Systems*

Food Donation Management System
June 2025 – August 2025

- Engineered an academic project supporting food donation coordination across multiple user roles.
- Designed comprehensive workflows for Administrators, Donors, NGOs, and Pickup Agents including authentication, role-based access control, logistics, and reporting dashboards.

Technologies: *Python, Django, HTML, CSS, JavaScript, SQLite*

YieldSmart – Smart Crop Yield Prediction System
December 2024 – April 2025

- Developed an academic Machine Learning project focused on predicting agricultural crop yield based on climate and soil data.
- Worked extensively with data preprocessing pipelines, feature engineering, and regression algorithms.

Technologies: *Python, Machine Learning, Data Preprocessing, Scikit-Learn*

PROFESSIONAL STRENGTHS

- Problem-solving & Analytical Thinking
- Team Collaboration & Communication
- User Support & Technical Troubleshooting
- Adaptability & Continuous Learning
- Attention to Detail & Time Management
- Client Interfacing & Service Operations

LANGUAGES

English: Proficient (Professional Working) | **Malayalam:** Native
